

# About Us

Vidya Ashram is a prestigious Institute for the preparation of various competitive exams for the last 6 years. Right from the very beginning, it was our vision to impart quality education in a conducive ambiance where a kind of deep mutual understanding and trust develops between the mentors and the students. In this endeavor, we strive hard and slowly but steadily developed a system so simple and effective that results start trickling in. On a consistent basis, we produced over 3500 selections in IIT-JEE & over 3000 in various medical entrance examinations. One of our salient features is that we firmly believe that preparing for Boards and Competitive exams are not two different things. But they should be merged with each other with such finesse and aplomb that an aspiring student remains least stressed and enjoys the rigorous daunting challenge of performing superbly in both. Integration of both the Boards and competitive exams is designed, planned, and executed at Vidya Ashram in excellent fashion
